SUMMARY

10+ years engineering, 3+ applying LLMs to production workflows. Built CentrOS multi-agent orchestration across Slack, email, calendar, CRM APIs + knowledge sources — MCP tool schemas, hybrid RAG, structured outputs, LangFuse evals, human escalation. 5+ reusable primitives ship new workflows in 2 days. Agents as operational infrastructure.

EXPERIENCE

Founder CentrOS — AI Agent Orchestration Platform *Feb 2026 – Present*
Remote · Canada • TypeScript · Hono · PostgreSQL · Drizzle · Vitest · LLM tool-calling

- Built CentrOS multi-agent orchestration connecting 5+ surfaces (Slack, email, calendar, CRM APIs, knowledge sources) into agentic GTM workflows — MCP tool schemas, hybrid RAG, human escalation.
- Created MCP-style tool interfaces with stable contracts, permission scoping, audit logs, reusable actions — cut custom-integration time 70% letting agents safely invoke skills across internal systems.
- Implemented hybrid RAG pipelines grounded in live business context: freshness boundaries, retrieval ranking, source attribution — cut grounding errors 60% while keeping every answer verifiable.
- Built eval harness + LangFuse trace pipeline: golden datasets, task-level scorers, regression suites, prompt versioning, failure taxonomy — caught 22+ silent regressions before release.
- Designed HITL interrupt model: confidence-gated handoff, approval checkpoints before irreversible actions, reversible operations, audit trails, escalation policy — 100% of high-risk tool calls human-reviewed.

Vertical automation & ops dogfood Conscious Creations *Sep 2022 – Present*
Remote · Canada • Python · FastAPI · LLM tool-calling · workflow automation

- Prototyped accommodations workflows on CentrOS: 3-stage guest-triage pipeline (classify → plan → draft) in Python/FastAPI with HITL approval gates before any irreversible action.

Creator, WEBTOON Original — AXED WEBTOON *Jun 2018 – Dec 2020*
Remote • Python · OpenCV · image processing

- Designed queue → tooling → review → ship operator workflow at 2M+ monthly views on WEBTOON Original — precursor to today's HITL agent + human production system at CentrOS.

iOS Mobile & Web Developer Coursera *Jan 2017 – Apr 2017*
Mountain View, CA • React · Python · iOS SDK · Swift · NLP/search

- Built Python search tooling lifting course content discovery 60% (pre-LLM NLP era) — same retrieval problem CentrOS now solves with embeddings, hybrid RAG, and pgvector.

SKILLS

Agentic Workflow Automation:

- Multi-agent orchestration: router-dispatcher, sequential chains, parallel fan-out
- MCP servers · function calling · structured outputs · tool registries
- RAG · retrieval pipelines · embeddings · source attribution · freshness control
- Workflow integrations: Slack · email · calendar · CRM · BigQuery · APIs
- Observability · evaluation · cost controls · human escalation · governance

Languages & Cloud:

- Python · Node.js · TypeScript
- GCP: BigQuery · Cloud Functions · Cloud Run · Vertex AI
- AWS: Lambda · Step Functions · DynamoDB · S3

EDUCATION

University of Waterloo Bachelor of Software Engineering (BSE) — Computer Software Engineering *2012 – 2018*
Waterloo, ON
